## Biography

On my journey, I discovered that I am an Omo Ogun. I have begun practicing Ifa in 2017, and have been a member of the Ifa Foundation Egbe since 2020. I believe that through Ifa you can connect to various energy matrices to help you develop self-actualization and growth. In 2016 I became certified as a Reiki practitioner. It was at this time that I discovered my abilities to work with and understand various energies within a person, as well as teaching a person how to tap into his/her own energies.

Along with being a duly licensed mental health therapist, I am also certified as a Diplomat in Comprehensive Energy Psychology (DCEP), through the Association for Comprehensive Energy Psychology. I offer a new group of therapeutic approaches that work with the human energy system and are understood to affect the body/mind interconnection. In my leisure time, I enjoy learning about energy and the way it affects ourselves, our world, and our interconnectedness. I also enjoy doing beadwork, collecting stones and creating art with wire, making healing oils and sprays, dressing candles for healing, and playing my singing bowls. When you take a course with me at The Ifa College, you will truly discover healing in a holistic environment as you tap into your own energy and mind.
